Hi both,

Just wanted to let you know that they ran the randomization yesterday and it will be provided to Chester today.

Due to the repairs to the floor, they were unable to move individuals to the unit until after the holiday, as I understand it.

CEN reran the lottery to ensure that the eligibility criteria were still appropriate, including therapy community and RHU residence, given the amount of time that had passed since the list was initially drawn.

More to come,  
Jordan

Hi Jordan,

Thanks a lot for the update. I'd been meaning to ask about this - wasn't sure if this had already happened or not!

Will the new lottery include people who have just arrived in the prison? If so, we will not have surveys for them. I think the best approach would be to re-check eligibility of those who were eligible at the last round, but not to add 'new' individuals to the eligible list. If we will include new individuals, we should have them pull the admin data again.

Best,

Britte

Hi,

Good question – here, we did not pull in any new people as they had not been reviewed by CHS for the security exclusion and could not have done a pre-survey. They just reran the eligibility checks and generated a new subset for assignment from the original list – some had become eligible (e.g., ended TC) and others had become ineligible (e.g. are now in the RHU but were not before).

Best,

---

Great - I'm glad it was done that way! Let me know if there's anything I can do to help.

Britte
